Start strong

Smaller courts, shorter racquets and balls that bounce lower. Now, it's easier for kids to play the game and develop a love for the sport right from the start!

The Essex Edge Youth tennis program uses specialized developmental balls for children age 10 and under.

Orange balls (50% less bounce) or Green balls (25% less bounce) allow kids to have early success. Clinics are taught by tennis professionals who are trained to teach proper stroke technique to kids of all ages.

Enhance your game
