Descriptions:

TRX Total Body: In this class you will use the TRX suspension trainer for a total body, core-focused workout. You will work through a progression of foundational exercises - plank, push, pull, hinge, lunge, squat, and rotate - to improve mobility, endurance, and strength. **Returning in May!**

SPEED: Push your fitness to a different level. Focus in this class is on speed, agility, and strength through interval training. On Tuesdays we practice sprinting, how to sprint, as well as reaping the cardiovascular benefits from it. On Thursdays we do interval weight training with either dumbbells or kettlebells, as well as various bodyweight challenges.

FitBOX: An authentic boxing workout combining proper boxing technique with intervals of cardiovascular work and recovery. Learn the basic punches and defensive moves using a progressive approach throughout the workout - bouts of hitting the heavy bag with rounds of conditioning and cardio to keep the heart pumping. This class is appropriate for all fitness levels and for boxing beginners as well as those with experience. Participants must bring their own wraps & boxing gloves.

PowerBOX: This 55 min class is you vs. the bag! Intense, simple boxing combinations with dynamic movements for a focus on developing reflexes, timing, agility, power, and speed. Participants must bring their own wraps & boxing gloves.
