Foundations to Flow Yoga In this class, we'll dive deep into what makes yoga much more than a way to stretch and exercise the muscles. In the beginning of each month, classes will be more like workshops where we explore in detail specific poses, the logic behind the typical cues offered in a flow class, how the breath integrates with flow and why yoga is a practice which trains the mind as much as the body. As the month progresses, we will build upon these foundations with a slow, mindful flow class that will help us integrate the ideas introduced at the beginning of the month. While each month may be treated like a 4-week series, each class will also stand-alone- participants can feel comfortable joining at any time.

Gentle Yoga: An opportunity to create unity, oneness and connection allowing us to explore ways to become aligned balanced and centered. Focus on breathing, muscle tone, balance, relaxation and flexibility in this inspiring class. Good for everyone. (EAAP approved)
