Why box?

Boxing is a perfect combination of strength training and cardio. You will also work on your balance, coordination, reflexes, and agility. Boxing is a full body workout – you will work your hips, legs, shoulders, back, core, and more! Muscular endurance, lower resting heart rate, decreased stress, and improved body composition, are also benefits of boxing workouts.

It looks hard...do I need to be fit already? Do I need boxing experience?

Our bag classes are designed for all fitness levels and for the boxing novice as well as someone with experience. It will be challenging but you can choose to take the options given to increase or decrease the intensity of your training session to challenge you where you are in your fitness journey.

What do I need?

Gloves are provided. You will need your own hand wraps (180" is recommended– you can purchase these at the front desk.)

Bring water and a sweat towel (you will sweat!).
